NOTICE TO HOLDERS OF CIA IM-130 DATED 28 MARCH 1949 (SECRET)

Reference is made to Footnote No. 2 to Table C appearing on page 4 of IM No. 130. The final sentence of this note reads as follows: "Traffic carried on German railways in 1941 represented a 76 percent increase over 1938." This statement was taken from an authoritative source, but information more recently available raises doubt as to the basis which was used for this estimate. It is therefore requested that holders delete this sentence.
